For CFDs based on cryptocurrencies, the value of swap points is the cost of storing a position for the following day and depends on market conditions such as interest rate of base currency of Financial Instrument, ease of entering into hedging transaction, liquidity of Underlying Instrument, transactional costs on Underlying Instrument and market level of swap points for those Financial Instruments. In both cases, XTB adds its margin to the obtained values of swap points and presents the final values in the Condition Tables. - You agree that our bid and offer prices are provided to you solely for the purpose of entering into transactions with us and you shall not rely or use our bid and offer prices for any other purpose.

8. Minimum and maximum trades

- 8.1** There are limits on the trade size of any trade You wish to place. You cannot place any trade unless it is within the relevant minimum and maximum trade size.
- 8.2** You must make sure You know the current minimum and maximum trade sizes applicable to any trade You wish to place. You must also ensure that You understand how to calculate maximum trade sizes. Please contact Your Account Manager or Customer Services.
- 8.3** If the size of your Order exceeds the maximum size as specified in the Specification Tables (e.g. a maximum Order value in Lots), We are entitled to request you meet additional requirements as well as offer special terms for the Transaction. We shall notify the you about such fact directly in the moment the Order is placed. You may accept the offered conditions solely at your own discretion.

9. Other charges and adjustments

- 9.1** A financing charge applies to position based Rolling Spot Forex Trades and some CFD trades. This may result in a daily funding charge to You. Where You have opened a sell in respect of a particular instrument, you will incur a borrow charge. The borrow charge varies per instrument (see our borrowing charges which vary from time to time). This borrow charge will also increase your margin requirements. Commission applies to all opening and closing trades on a Retail Pro Account and applies to Stock CFD trades across all accounts. Adjustments also apply in the case of any Corporate Action. We may charge You for the provision of market data or any other account feature or such other charge as we advise from time to time.
- 9.2** Inactivity Fee Charges- If there are no opening or closing trades on the Customer's account within the previous 365 days and no cash deposit within the previous 90 days, a fee of EUR 10 is charged. In the absence of sufficient funds, a fee is charged in the amount of free funds remaining on the Customer's account. Before the fee is collected, the amounts are converted into the currency of the account.

10. Initial Margin

- 10.1** Initial Margin is due to XTB Limited on each opening Trade You place. Initial Margin must be maintained in respect of all Open Positions.
- 10.2** Initial Margin (IM) is calculated differently for CFDs and Rolling Spot Forex. You must make sure You know how IM is calculated and the relevant IM Factor for any trade You propose to place. IM Factors are in the Specification Tables located on the Website. If in doubt, please contact Your Account Manager or Customer Services.
- 10.3** XTB Limited can:
- a) waive Initial Margin in relation to any particular trade;
 - b) vary IM factors for any reason but particularly in respect of any Account/s that in XTB Limited's sole discretion is considered to have established large or excessive concentrated risk in respect of any instrument. Please note that changes to the IM Factor applies to open positions so additional Margin may become due to maintain open positions.

11. Variation Margin

- 11.1** Variation Margin is immediately due and payable when as result of Your Trades or changing market conditions the Equity or Balance on Your Account might fall below 50% of the current Margin blocked on the Account. This is calculated by the deduction of the total negative factors of the Your Account from the total positive factors. If in the result of Your Trades the Equity or Balance becomes equal or lower than 50% of the current Margin blocked on Your Account than XTB Limited is authorized but not obliged to close any or all Open Positions, in whole or in part, as specified in point 11.5 of herein Terms.
- 11.2** Variation Margin is **not** the total extent of Your financial liability to XTB Limited and You are bound by this Agreement to make good the entirety of any losses, that can amount to the whole financial resources excluding a negative balance on your Account, and to make good any other payments due hereunder.
- 11.3** Variation Margin is immediately payable whether or not demanded and whether or not a Margin Call is made. It is therefore Your responsibility to ensure that You understand how Variation Margin is calculated and it is also Your responsibility, and not XTB Limited, to monitor Your open positions and all other relevant factors used to calculate Variation Margin payable. You are required to notify us immediately if You cannot, or believe You will not be able to, meet a Variation Margin payment when due.
- 11.4** XTB Limited is not obliged to make Margin Calls to You or within any specific time period and we shall not be liable to You for any failure by us to contact You or attempt to contact You. Margin Call can be made at any time and by any method of communication. Where a Margin Call has been made by one or more method of communication it shall be deemed to have been made at the earliest time such communication is deemed served as referred.
- 11.5** In the event of any of the following, XTB Limited reserves the right (but is not obliged) to close any or all, in whole or in part, of Your Open Positions (including those held on a joint Account with others) on the basis of current XTB Limited Price (or next available), to exercise its rights of combination consolidation and set off hereunder, to close Your Account and not accept any further Orders from You, in each case with or without notice to You, XTB Limited reserves the right to effect closures at anytime:
- a) if any method of payment employed by You to make payment to XTB Limited is not met on first presentation or is subsequently dishonoured;
 - b) if XTB Limited considers, in its absolute discretion, that You have materially breached any of the clauses contained within this Agreement as may be amended from time to time;
 - c) if any representation or warranty made by You in relation to this Agreement is found to be, or becomes, untrue, inaccurate or misleading in any respect;
 - d) if You become subject to insolvency;
 - e) if You should die, be committed as a patient under relevant mental health legislation or any court order is made in respect of You under relevant mental health legislation or XTB Limited suspects or believes the same to be true;

 - g) if there occurs any other event or any other circumstance exists, where we reasonably believe that it is necessary or desirable to take any of the above actions in order to protect ourselves or any or all of our other clients;
 - h) if any regulatory body of XTB Limited business, or the rules of such a body, require XTB Limited to do all or any of the foregoing;
 - i) If the Equity or Balance is equal or lower than 50% of the current Margin blocked on Your Account.

- 11.6** XTB Limited reserves the right to exercise all or any of the rights referred to above at any time after the occurrence of any of the events therein referred to and regardless of when the Underlying may close.
- 11.7** XTB Limited shall have the right to change the amount of the Margin and such changes shall be immediately notified to the Client.
- 12. Position Closure**
- 12.1** An open trade will continue until its Expiration Day or after 365 days from the date of the position opened or the occurrence of a relevant event such as a Corporate Action; it will then be automatically closed at the first Financial Instrument price provided by XTB after that period. However, this is subject to:-
- Your right to close the Trade before Expiration Date;
 - our right to close the Trade;
 - execution of any Order that closes the Trade.
 - exception applies on Equities CFDs and ETFs CFDs open positions, see clause 12.2.
 - In the case of CFDs based on Cryptocurrency prices, introduced to the offer before October 22nd 2018, after 7 days from the date of opening the position, at the first Financial Instrument Price provided by XTB after that period.
- 12.2** If the underlying Instrument for an Equity CFD or ETF CFD is being delisted from the Underlying Exchange, XTB shall have the right to close the open position on such an Equity CFD or ETF CFD on the last trading day, or after delisting of Underlying Instrument at the last available Market Price of the Underlying Instrument, and at the same time XTB shall inform the Client if such circumstances occur. If the company whose market price is the entire or a part of the Underlying Instrument for the Equity CFD becomes insolvent, a petition for announcement of bankruptcy is filed against it or it is dissolved in any other manner, as of the day of closure of the position placed by XTB on the relevant Organised Market according to the agency model described in clause 2.8, XTB can close the Open Position for the given Equity CFD:
- if the Client has a long position – at the price that is the closest to zero. In such a case, if the company makes a payment for the stockholders, the amount equal to the final distribution amount shall be booked in the Client's Trading Account;
 - if the Client has a short position – at the price that is the closest to zero. In such a case, if the company makes a payment for the stockholders, the amount equal to the final distribution amount shall charge the Client's Trading Account
- 12.3** An Open Position on Stock CFD and ETF CFD shall be closed without Client's consent after 365 days from the date of opening of the position in the situation where the value of Equity is lower than the value of commission on transaction closing this position.
- 12.4** You may close Trades by:
- either closing a "sell" Trade by buying at the XTB Limited Buy Price current on closing; or,
 - You close a "buy" Trade by selling at the XTB Limited Sell Price current on closing.
- The above applies regardless of XTB Limited Prices or Spreads current on opening. In addition: -
- unless we specifically agree, You can only close during our trading hours for the Market;
 - Your maximum trade size (on closing) will be limited to that applicable on closing, regardless of the maximum trade size that applied on opening. Consequently, You may need to execute more than one closing trade in order to completely close an open trade and the XTB Limited Price of each closing trade may vary considerably.
 -
- 12.5** In case of Financial Counterparty, XTB calculates results in the following way:
- Financial Counterparty's unrealized loss is settled by the XTB in real time by adjusting the Free Margin on Financial Counterparty's Account;
 - Financial Counterparty's unrealized profit will be settled if the unrealized profit on all currently opened Positions exceeds EUR 500.000. If at the end of the day the unrealized profit exceeds EUR 500.000 then XTB will roll over Financial Counterparty's Open Positions by closing all Financial Counterparty's Positions, transfer of the unrealized profit on the Financial Counterparty's Account and reopen of the closed Position at the closing prices;
 - the amount EUR 500.000 will be exchanged to the Account Currency at the rate published by Polish National Bank on the day when the aforementioned level was exceeded.

- d) all Orders must be at an execution price set by You and agreed by us;
- e) all Orders are deemed "Good 'Till Cancelled" or "GTC".
