¹⁾Only if two of these conditions are simultaneously met, a fee of EUR 10 is charged monthly:

- a) within the last 365 days there was no opening or closing a position on the Client's Account, and
- b) no cash deposit was made by the customer within the last 90 days to the account.

In the absence of sufficient funds, a fee is charged in the amount of free funds remaining on the Client's Account. Before the fee is collected, the amounts are converted into the currency of the account. If a customer has an open position in any account, no fee is charged.

²⁾ Fee is deducted from Client's Account, after the preparation sheet to sending.

³⁾ Interests are deducted from Client's Account in the moment of event.

⁴⁾ Fee is charged directly at the time of the transfer and deducted from the Client's bank account.

5) The basic currency conversion fee rate is 0.5% of the transferred amount, while a higher rate of 0.8% of the transferred amount applies to transfers conducted during weekends (from Friday 22:00 to Sunday 23:00) and holidays (days when currency quoting does not take place). The indicated times from the last Sunday in October to the last Saturday in March are expressed in Central European Time (CET), while during daylight saving time from the last Sunday in March to the last Saturday in October, they are expressed in Central European Summer Time (CEST). The fee is deducted from the Client's Account from which the transfer is made at the time of currency conversion

6) Indicated range of interest rates represents interest paid on overnight deposits in EUR, USD, PLN, CZK, RON, HUF valid on the publication date of this Table

⁷⁾ The Italian FTT tax is charged and deducted from Client's Account the next working day after the day when the Transaction was executed. In the case of a currency conversion, the official ECB exchange rate from the day before the FTT tax is applied is used. If the aforementioned rate is unavailable, the NBP exchange rate from the day before the FTT tax is applied is used instead.

2. Organised Market Instruments (OMI) and Fractional Rights

Commissions on transactions

Commission for Transaction on OMI and Fractional Rights ¹⁾	Fee for currency conversion ^{2) 4)}
Tariff valid until reaching turnover of 100,000 EUR within a calendar month on all registered accounts	Tariff valid for any trade after exceeding 100,000 EUR of cumulative turnover for all registered accounts within a calendar month ³⁾⁴⁾
0%, minimum 0 EUR	0.2%, minimum 10 EUR
	0,5%

¹⁾ The fee shall be converted to the currency in which account is kept according to XTB Exchange Rate and charged from the Client's Account at the moment of transaction execution.

²⁾ All currency conversions related to trading and corporate actions on OMI and Fractional Rights are subject to 0.5% mark-up on top of Exchange Rate as defined in the GTC. It is charged from the Client's account at the moment of transaction execution or on the settlement date of the corporate action.

Example:

Opening long position in Stocks and ETF, ETC, ETN (OMI) listed in EUR on USD account will be subject to currency conversion according to XTB Exchange Rate, based on following pattern: ask EUR/USD +0,5%*mid. Short position will be subject to currency conversion based on bid EUR/USD -0,5%*mid.

Opening long position in Stocks and ETF, ETC, ETN (OMI) listed in USD on EUR account will be subject to currency conversion according to XTB Exchange Rate, based on following pattern: bid EUR/USD -0.5%*mid. Short position will be subject to currency conversion based on ask EUR/USD +0.5%*mid.

³⁾ Example: Let's consider a scenario when a client trades 5 times within a month. Accumulated value of the first 4 transactions is equal to 95,000 EUR. Nominal value of the fifth transaction (purchase of shares listed in Germany) is 7,500 EUR. The commission charged in this case will equal the minimum amount of 10 EUR ($[2,500 \text{ EUR} \times 0.2\%] < 10 \text{ EUR}$). To convert the order nominal value to EUR, XTB uses market rates presented on the xStation trading platform. If XTB quotes a given EUR conversion rate, then such conversion takes place directly at the mid $((\text{bid} + \text{ask})/2)$ rate. If the direct rate is not available on the trading platform, XTB will first convert the nominal value to USD and then to EUR. In both steps, XTB will use the mid rate of quotations.

⁴⁾ In case the direct rate is not available on the trading platform, XTB will first convert the denomination to USD and then to the target currency. In both steps, XTB will use 0.5% of the mid exchange rate to calculate the currency conversion fee.

Fees and taxes imposed by local authorities

Market	Fee/Tax ¹⁾	Rate
France	French Financial Transactions Tax (FTT)	0.4% of the value of acquired

⁸⁾ The fee is charged in the following month if the conditions listed in the "Rate" column are met.

⁹⁾ The fee is charged on the day of the corporate action.

Withholding taxes

XTB Clients' stocks are registered on the omnibus account kept by the Custodian. In the case of dividend payment, the withholding tax taxpayer is the bank designated for a given market by the XTB Custodian. The taxpayer has no knowledge of the identity of XTB clients (beneficial owners), and thus their tax residence. For jurisdictions where applicable double tax treaties might apply, the taxpayer, unable to identify the tax residence of the owner of stocks, may not apply the provisions of these double tax treaties. In such a case, the taxpayer is obliged to apply the highest withholding tax rate provided for by local regulations (e.g. 30% for shares listed in the US, 35% for shares listed in the Czech Republic, 35% for shares listed in Portugal). The tax is deducted from the Client's account on the settlement date of the corporate action.

6. General comments

Other costs connected with Transactions in XTB e.g. Spreads, swap points, overnight financing or other commissions and fees, which the Client shall pay to XTB are described in others Condition Tables and Swap points/overnight financing table available on XTB's Website.

7. Table of XTB Exchange Rates

In order to convert specific positions into the currency of client's account, in each Client's Transaction, XTB uses bid and ask rates from the Client's Standard Account. The frequency of refreshing the XTB exchange rate may be slightly reduced compared to the prices from the Standard Account.

If XTB does not quote a pair allowing to directly convert one of the Transaction parameters to the currency of the Investment Account, the conversion is done by converting the parameter into USD and then into the currency of the Investment Account.

XTB informs in the Fees and commissions table about additional fees that may arise.

The tables below present the rate, which is used to convert a given parameter of a Transaction into the currency of the Client's Investment Account.

	CFD Instruments	OMI Instruments and Fractional Rights
Margin	(bid rate ¹⁾ + ask rate ²⁾)/2	N/A
Transaction result	For CFD instruments: Bid rate ³⁾ — in the case of settling a transaction in the account's currency that reflects the process of the Client selling the instrument's currency to receive the payment (profitable transaction), Ask rate ⁴⁾ — in the case of settling a transaction in the account currency that reflects the process of the Client purchasing the instrument's currency to cover the liability (loss-making transaction); If a direct conversion rate for CFD Transactions does not exist, the result will be firstly converted into USD,	N/A

	next, into currency of the Investment Account. Both conversions will be performed according to the same principles as those for a single conversion.	
Commission	Ask rate	Ask rate
Swap points / cost of financing value and position rollover value	(bid rate + ask rate)/2	N/A
FTT, other fees/taxes	The official ECB exchange rate from the day before the FTT tax is applied. If the aforementioned rate is unavailable, the NBP exchange rate from the day before the FTT tax is applied.	According to the official fixing rate of the National Bank of Poland of the previous day
Corporate Actions (dividends, equivalents of dividend, fee on equivalent of dividend, equivalent of subscription rights, etc.)	For Stock CFDs i ETF CFDs: Bid rate + 0,5%*mid	Bid rate + 0,5%*mid
Nominal value of purchase/sale	N/A	Ask rate + margin specified in the Fees and commissions table – for purchase orders Bid rate + margin specified in the Fees and commissions table – for sale orders

¹⁾ Price for the purchase transaction.

²⁾ Price for the sale transaction.

³⁾ XTB Exchange Rate bid – mark-up⁵ * mid XTB Exchange Rate

⁴⁾ XTB Exchange Rate ask + mark-up⁵ * mid XTB Exchange Rate

⁵⁾ Margin for CFD Instruments is equal to 0%.

8. Currency Exchange

The Currency Exchange Rate is based on Standard offer prices. The Currency Exchange Rate is refreshed no more frequently than once per 1 second.

Outside of FX instrument trading hours used for currency conversion, higher conversion fees apply on weekends and holidays as indicated in Section 1. General. Market opening refers to the first price after trading opens.

If XTB does not quote a pair allowing for direct exchange, conversion is done by first converting to USD, and then to the Account Currency.

Currency Exchange	Bid price of exchange rate

Example:

1) A client has a EUR account and exchanges 1000 EUR to another account held in USD. The current exchange rate (bid / ask):

EURUSD: **(1.08215 / 1.08224)**

Value of 1000 EUR in USD currency is equal to 1082.15 USD = $1000 * \mathbf{1.08215}$

Moreover, a commission will be charged according to the information provided in Section 1. General, which is 0.5% or 0.8% depending on the exchange time.

- Value of charged commission: 5 EUR = $(1000 \text{ EUR} * 0.5\%) = 5 \text{ EUR}$

or

- Value of charged commission: 8 EUR = $(1000 \text{ EUR} * 0.8\%) = 8 \text{ EUR}$

2) A client has a USD account and exchanges 1000 USD to another account held in EUR. The current exchange rate (bid / ask):

EURUSD: **(1.08215 / 1.08224)**

→ USDEUR = ⁽¹⁾

EURUSD): **(0.92401 / 0.92409)**

Value of 1000 EUR in USD currency is equal to 924.01 EUR = $1000 * \mathbf{0.92401}$

Moreover, a commission will be charged according to the information provided in Section 1. General, which is 0.5% or 0.8% depending on the exchange time.

- Value of charged commission: 5 USD = $(1000 \text{ USD} * 0.5\%) = 5 \text{ USD}$

or

- Value of charged commission: 8 USD = $(1000 \text{ USD} * 0.8\%) = 8 \text{ USD}$

Additionally, service is provided only by making a transfer ordered by client between trading accounts held by client and only in currencies of these accounts. XTB provides currency exchange services only when it is related to provision of another brokerage service. Currency exchange service provided by XTB does not constitute a currency exchange activity. Currency exchange service should only be for execution of specific orders, such as the purchase of Financial Instruments in a currency other than funds deposited by client.
