  - You die or become a patient under relevant mental health legislation, or we have reasonable grounds to believe that You have done so;
  - if we think it would not be commercially viable to accept that trade;
  - if we think the trade is too large or too small. For example, we may hedge Your trades in the Underlying Instrument; depending on the size of Your proposed trade our exposure to the Underlying Instrument share/equity may amount to a declarable interest in the relevant company and/or require us to make a takeover offer if we think this may occur we are entitled to refuse the trade;

**7.3.** The difference between the Buy and Sell XTB Price on any given Financial Instrument is the Spread.

We have the right to vary Spreads.

#### **Floating Spread**

- For some Financial Instruments and some Accounts XTB applies a principle of quoting XTB Prices with the use of variable Spread which reflects the prevailing market conditions and volatility of Underlying Instruments' prices.
- For the floating spread Financial Instruments, the Spread will be constantly changing, as it reflects the prevailing market conditions and volatility of the Instruments' prices.

#### **Market Execution Prices**

- For Financial Instruments with market execution "market order", prices shown in the Account should be deemed as indicative and it is not guaranteed that the Client will deal at this quotation. The price of Client's Order execution will be based on the best price which XTB can offer at the particular moment without obtaining any additional confirmations from the Client. The current price of a Financial Instrument with market execution at which the Transaction is concluded will be reported back by XTB. The price of a concluded Transaction will be visible in the Account.

- 15.61.** The Client's Order is invalid if:

- 15.66.** We may also introduce temporary limitations in acceptance of Instructions if it is necessary to carry out technical maintenance of the IT infrastructure used by us for acceptance or registration of Clients' Instructions.
- 15.67.** We shall not be liable for any losses resulting from suspension of an Order or Instruction acceptance, referred to in clauses 15.64-15.65 unless the suspension results from circumstances we are liable for pursuant to generally applicable law.
- 15.68.** In the event of a delay in Transaction settlement by a Securities Depository or Custodian for reasons we are not responsible for, we shall be entitled to withhold payment of the unsettled amounts due to the Client until settlement of these Transactions.

- 15.70.** We shall transfer OMI into another Client's or other person investment account based on a Disposition and in accordance with Applicable Law. In the event of any change of the ownership right, we require that the documents, in the form we specify, indicating the basis for the transfer of the OMI or funds be attached to the Disposition. We may withhold execution of your Disposition until you have provided us with all the documents we require.
- 15.71.** We may also refuse transfer of the OMI into another account if the funds deposited on the Client's Trading Account are insufficient to fully satisfy the liabilities towards XTB.
- 15.72.** We shall transfer the Client's OMI or funds on which a limited property right has been established or whose negotiability is limited only subject to maintaining such rights or limitations. A situation where the Applicable Law or the legal relationship serving as the basis for establishment of such limited property right or limitation of the negotiability of the Financial Instruments provides otherwise, shall be an exception to the above rule.
- 15.73.** We shall apply the provisions of clauses 15.69-15.71 respectively to transfers of OMI or funds among the Client's Trading Accounts.
- 15.74.** Subject to the provisions of clause 15.77, we shall perform on your Trading Account activities related to establishment and execution of collaterals for liabilities on your OMI or funds.

- 15.76.** We shall remove the blockade of the Client's OMI or financial funds established for secured liabilities in connection with expiry of the collateral or its fulfilment. Removal of the blockade on the Client's OMI or financial funds shall take place when the conditions provided for in the agreement on establishment of the collateral are fulfilled or based on the creditor's statement.
- 15.77.** If based on the documents concerning the liability for which the collateral is to be established or based on the agreement on establishment of the collateral it can be concluded that they are not compliant with Applicable Law, we shall refuse to undertake actions related to establishment of a collateral for the liabilities. Our refusal shall be in writing and provide reasons therefor. Prior to this, we shall enable you to provide clarifications.
- 15.78.** We may also refuse to perform the actions referred to in clause 15.69 with respect to a given type of OMI if establishment of the collateral would be in conflict with the Applicable Law.
- 15.79.** We perform the transfer of OMI from another investment firm to the Client's investment account at XTB on the basis of an Instruction and in accordance with the Applicable Regulations. In the case of transfer of OMI to the Client's investment account at XTB, we require that the Instruction be accompanied by documents in the form specified by us, which indicate the basis for the transfer of OMI or funds. We have the right to withhold execution of the Client's Instruction until the Client provides all the documents we require. We only execute transfers of OMIs offered by XTB to Clients under the current offer.

#### Fractional Rights

- 15.80.** You can hold through XTB Fractional Rights related to Financial Instruments categorized as OMI (a Fiduciary right to a fraction of a single unit of an OMI).
- 15.81.** Transactions in Fractional Rights consist in creation or expiration of a Client's Fiduciary - right to a fraction of a OMI unit. One party to this Transaction is a Client and the other – XTB. Fractional Rights cannot be a subject of a transaction conducted between a Client and a third party and cannot be transferred to another entity's account.
- 15.82.** If an OMI to which the Fractional Rights relate are indivisible under the Applicable Law, holder of such an OMI unit will be XTB acting in its own name behalf but for the benefit of the Clients.
- 15.83.** Whenever you hold a Fractional Right, XTB will hold a corresponding OMI unit up to a fraction of which you have a Fiduciary right. In relation to third parties (e.g. issuer of a share), XTB will be entitled to OMI, while you are entitled with economic benefits resulting from holding a fraction of an OMI vis-à-vis XTB.
- 15.84.** You can hold (whole) share or other OMI instrument and Fractional Rights at the same time.
- 15.85.** Fractional Rights are recorded in your Trading Account.

#### Placing an Order

- 15.86.** Acquisition and sale of Fractional Rights is possible by placing Orders on the terms set out in the Order Execution Policy.
- 15.87.** Orders to buy Fractional Rights are executed through the creation of Fractional Rights. This means the creation of your fiduciary right to a fraction of the OMI in the number specified in the Order and the debiting to your Trading Account of an amount equivalent to your obligations under the Transaction. The date on which your fiduciary right arises is (i) the date on which you execute a transaction to buy Fractional Rights (when you use an OMI unit that you already own) or (ii) the date on which you settle a transaction to buy a total OMI on the regulated market (when, by executing orders to buy Fractional Rights, you place an order to buy a total OMI unit on the regulated market), which is no later than the second business day following the conclusion of the transaction on the regulated market.

- 15.88.** Orders to sell Fractional Rights are executed by redemption of Fractional Rights. This means redeeming your fiduciary right to a fraction of the OMI in the number specified in the Order and crediting your Trading Account with an amount which is equivalent to the amount due under the Transaction.
- 15.89.** If you create a purchase Order for Fractional Rights, we can either buy a single unit of a specific OMI to which the Fractional Rights relate category (single share, ETF unit, etc.) on an Organized Market or use an OMI unit that we already hold. Consequently, when we receive an Order to buy Fractional Rights, we have the right to exercise it either (i) by granting you a Fiduciary right to a fractional part of an OMI unit already held by us or (ii) by acquiring such an OMI unit on an Organised Market and granting you a Fiduciary right to a fraction of such an OMI (on the date of settlement of this transaction in a Securities Depository).
- 15.90.** In order to purchase or sell Fractional Rights, you may place an Order by means of the electronic access to the Trading Account. The Transaction execution Order becomes binding only after XTB accepts it.
- In particular, the Order must contain the following information:
- a) name and surname (name and business name) as well as number of the Trading Account of the Client,
  - b) data of the person placing the Order,
  - c) date and time of Order placement,
  - d) number of Fractional Rights being the subject of the Order or their requested value,
  - e) Order subject (buy or sell),
  - f) Order expiry date,
  - g) other required parameters, according to the Applicable Law.
- 15.91.** In the Conditions Table regarding OMI we determine the minimum value of the Order in Fractional Rights and the method of rounding the number of Fractional Rights to decimal to determine the volume (number) of Fractional Rights.
- 15.92.** We will accept and execute the Order to buy Fractional Rights if you have Free Margin in your Trading Account sufficient to cover the Purchase price of the Fractional Right. If the funds are insufficient to execute the Transaction, we can reject and invalidate the Order in full or in part, subject to the Order Execution Policy.

#### Expiration of the Fiduciary right to a Fractional Right

- 15.93.** If you acquire such a number of Fractional Rights that as a consequence the sum of the fractions recorded on your account relating to a given OMI exceeds a whole number of the relevant OMI instrument, your right to the Fractional Rights equal to the whole number will expire on the second business day after the transaction is concluded and such (whole) OMI instrument will be recorded on your Trading Account. Analogously, if you hold a (whole) OMI instrument registered in your Trading Account, you can sell a fraction of such OMI; in such a case, on the second business day after the transaction is concluded, the whole OMI is not registered in your Trading Account, while your right to the Fractional Right is registered there. The rules described above shall be applied separately for Fractional Rights credited to different Technical Accounts.
- 15.94.** Transaction on Fractional Rights are subject to standard settlement of Regulated Markets, on which for Financial Instruments categorized as OMI (including shares and ETFs) are traded subject to time zone differences and XTB's working hours. A standard settlement cycle on Regulated Markets in the EU, in Great Britain and in the United States is two business days (T+2). The final settlement date depends on the moment of placing an Order to purchase or sell Fractional Rights. If you place an order within the last seconds of Trading Day on a particular Organised Market, we may not be able to place an Order to purchase or sell corresponding unit of OMI before a Trading Day ends. We will create such order the very next business day after as soon as trading session starts. In the event that you place an order and trading on a given Organised Market is suspended, we will create an order for single OMI unit as soon as continuous trading on a Regulated Market resumes.

#### Keeping OMI and Fractional Rights in Fiduciary relationship

- 15.95.** OMI listed on foreign markets, to which the Fractional Rights refer are registered on an omnibus account held for XTB by a Custodian in a manner ensuring their separation from the Financial Instruments of a Custodian, other XTB own assets and registering them in a way that ensures separation from other Financial Instruments of Clients. XTB (fiduciary) is the holder of an omnibus account and a Client - a person fiduciary entitled to keep on this account OMI to which Fractional Rights refer. XTB maintains internal register of Fractional Rights. The purpose of proper registration of Fractional Rights is demonstration of the Client's rights to the OMI held in trust by XTB. However, a right of Clients to segregation with regard to Fractional Rights and thus exclusion from XTB's bankruptcy estate, as well as from a Custodian's bankruptcy estate, cannot be guaranteed.

#### Corporate Actions

- 15.96.** Corporate Actions are generally executed in relation to the total balance of OMI in your account.
- 15.97.** As a result of a reverse split, Fractional Rights may be allocated to your account. This will be the case if, after the merger, amount of Financial Instruments due to you calculated as a result of realization of the merge factor is not an integer.

- 15.98.** As a result of the realization of a corporate action, a situation may arise where the amount of Financial Instruments due to you, calculated as a result of the application of the aggregation ratio, will have to be rounded to the minimum position size determined for a given Financial Instrument. If XTB does not allow the acquisition of Fractional Rights for a given Financial Instrument - the minimum position size will be equal to 1 unit. If XTB allows the acquisition of Fractional Rights for a given Financial Instrument - the minimum position size will result from the precision of rounding of a given Fractional Right, and this parameter will be given in the Specification Table. In such a situation, we will allocate OMI or Fractional Rights to your account, and then sell the merge deficiencies (i.e. the non-allotted units of the Financial Instruments) to you and pay out the cash equivalent.
- 15.99.** In the case of Corporate Actions regarding shares, the following terms apply to Fractional Rights:
- a) the only entity authorised to exercise corporate rights under the shares regarding the Fractional Rights is XTB who holds the status of a shareholder in relation to the issuer;
  - b) the Client shall have no voting right or any similar rights attached to the shares the Fractional Rights regard;
  - c) the Client does not acquire a pre-emptive right to the shares the Fractional Rights regard or a right to trade in that right, which shall be allotted to XTB as a result of issue of the pre-emptive rights by the issuer; if pre-emptive rights to the shares are allotted, XTB shall sell such rights and transfer the respective value of proceeds to the Client holding the given Fractional Rights. The payments shall be made only if their value is equal to or exceeds 0,01 of the Account Currency unit. Amounts lower than the said value or indivisible amounts shall not be paid out;
  - d) the Client acquires the right to dividend paid out in cash in the part corresponding to the multiplication of the dividend per share and the fraction of the Fractional Right;
  - e) in the case of pay-out of the dividend or buy-back of securities, the proceeds from the dividend or buy-back shall be transferred to the Client proportionally to the fraction of the Fractional Rights. The payments shall be made only if their amount is equal to or exceeds 0.01 of the Account Currency unit. Amounts lower than the said value or indivisible amounts shall not be paid out;
  - f) in the case of dividends paid out in shares and not in cash, the dividend shall be received in cash proportionally to the fraction of Fractional Rights
  - g) Fractional Rights participate in split and reverse split of share.

## ESG

- 15.100.** On the Trading Platform, we inform you that we provide an ESG risk rating indicator called "Sustainability Rating" for ETFs and stocks (OMI) in the instrument information field. The indicator is based on a methodology provided by an external provider.
- 15.101.** The ESG risk rating indicator (Sustainability Rating) is a visual representation of the economic value at risk of an OMI, that results from environmental, social and governance (ESG) factors. The ESG risk rating, measures the unmanaged ESG risks of a Financial Instrument admitted to trading on an Organised Market, presented as a quantitative score on a scale from 1- 5, presented as follows, OMI with:
- (a) negligible risk - 5
  - (b) low risk - 4;
  - (c) medium risk - 3;
  - (d) high risk - 2;
  - (e) severe risk - 1.

## 16. Investment Plans

- 16.1.** Investment Plan allows you to create via Trading Platform separate portfolios, which may include Financial Instruments or Fractional Rights of your choice. The creation of a portfolio involves the opening of a Technical Account.
- 16.2.** When setting up a portfolio, you must indicate what the initial percentage of the value of the portfolio is to be of the individual Financial Instruments or Fractional Rights you intend to purchase (allocation). While using Investment Plan, you can change the allocation you originally indicated.
- 16.3.** Before acquiring Financial Instruments or Fractional Rights within a portfolio, you must indicate how much of the Free Funds you wish to allocate to the portfolio
- 16.4.** From the allocation referred to in clause 16.2, the minimum amount at which we can execute your Orders may depend. We will inform you of its value through the Trading Platform.
- 16.5.** The amount referred to in clause 16.3 shall be credited to the corresponding Technical Account assigned to you and shall include a reserve that may be used for the execution of Orders.
- 16.6.** Unless otherwise indicated, the rules set forth in the General Terms and Conditions shall apply to Transactions made on portfolios under the Investment Plan.

## Operations on Financial Instruments or Fractional Rights included in the portfolio

- 16.7.** We do not advise or have any influence on what Financial Instruments or Fractional Rights are included in the investment portfolios you create or on the Transactions performed on them, unless otherwise stated in the General Terms and Conditions.
- 16.8.** If you use the equal allocation option when selecting the Financial Instruments or Fractional Rights on which you wish to execute a Transaction within a portfolio, the Financial Instruments or Fractional Rights you select will take an equal percentage of the indicated value of the Transaction you plan to execute. If this is not possible, we will round down the amount of assets that are subject to the transaction in such a way as to allow the allocation referred to in the previous sentence and the remaining amount will be credited to your Free Funds in the respective portfolio.
- 16.9.** If you wish to withdraw assets from a given portfolio and indicate an amount that exceeds the Free Funds in it, it will be necessary to sell the Financial Instruments or Fractional Rights included in the portfolio. In such a situation, when confirming the withdrawal of assets from the portfolio, you place an Order to sell the Financial Instruments or Fractional Rights included in the respective portfolio in the amount you wish to withdraw. Individual Financial Instruments or Fractional Rights will be sold in proportion to their value in relation to the value of all Financial Instruments or Fractional Rights included in the respective portfolio.
- 16.10.** The amount obtained from the sale of Financial Instruments or Fractional Rights that exceeds the amount designated by you for withdrawal from the portfolio shall be credited to the Free Funds assigned to this portfolio.

- 16.16.** Financial Instruments or Fractional Rights which are being traded by you under the Investment Plan are recorded in the Trading Account in accordance with the rules set these Regulations and are allocated to the corresponding Technical Account. The Technical Account also records the funds that you have earmarked for the Investment Plan.
- 16.17.** Open Positions relating to Financial Instruments or Fractional Rights assigned to a particular Technical Account shall be closed using the direct method. This means that the Open Positions that are designated by the Client are closed. In this case, the FIFO (first in first out) rule does not apply, which is referred to in clause 15.69
- 16.18.** The designation referred to in clause 16.17 is made by you specifying the Technical Account to which the Open Positions you wish to close are assigned. If it is not technically possible for you to specify exactly which Open Positions you wish to close within a particular Technical Account, you authorize us to close them according to the time they were opened within that Technical Account, starting with the earliest one opened; clause 15.67 applies accordingly. ## 31. Force Majeure Events

- 31.1.** We may, in our reasonable opinion, determine that an emergency or an exceptional market condition exists (a "Force Majeure Event"). A Force Majeure event is any event which prevents XTB from making orderly markets in any contract normally quoted by XTB for the purposes of making Trades. In such case we will, in due course, inform the FSC and take reasonable steps to inform You. A Force Majeure Event will include, but is not to, the following:
- A. the suspension or closure of any market or the failure of any event on which we base, or to which we in any way relate, our quote, or the imposition of limits or special or unusual terms on the trading in any such market or on any such event;
  - B. the occurrence of an excessive movement in the level of any Trade and the Underlying Market or our anticipation (acting reasonably) of the occurrence of such a movement;

## 32. Errors

- 32.1.** In order to be valid, a contract note, or any other form of Trade confirmation, must accurately reflect the relevant Trade struck at the Trading Platform. Erroneous contract notes or Trade confirmations will not affect the validity of the Trade that was struck and will not entitle the client to enforce whatever is inaccurately recorded in the contract note or Trade confirmation.
- 32.2.** XTB reserves the right to refuse, void or amend any Trade involving or deriving from a Manifest Error. Any amendment of such a Trade shall reflect what XTB considers in its sole discretion, acting in good faith and in line with the Orders Execution Policy, to be the correct or fair details of such a Trade absent such Manifest Error.
- 32.3.** The term "Manifest Error" applies to any error, omission or misquote, (including any misquote by the dealer) which by fault of either XTB or any third party is manifest when taking into account the Market conditions and available quotes that prevailed at the time. This may include, wrong price, Market or any error or lack of clarity of any information, source, commentator, official result or pronouncement.
- 32.4.** In the event of a Manifest Error, XTB may take into account all information in its possession including information concerning the expertise of the Client and the Market conditions that prevailed at the time of such error. When making a determination as to whether a situation amounts to a Manifest Error, XTB will act fairly towards the Client and the Client must equally not gain any unfair advantage by such Manifest Error. The fact that a Client may have entered into, or refrained from entering into, a corresponding financial commitment, contract or trade in reliance on a Trade placed with XTB is deemed irrelevant as a factor and shall not be taken into account by XTB in determining whether a situation amounts to a Manifest Error.

**37.1.** You are responsible for compliance with all laws and regulatory rules (whether Belize or elsewhere) in relation to Your trades, including those of the FSC and any other relevant regulatory body.

## **38. Market Abuse**

**38.1.** XTB will frequently hedge its liability to You by opening simultaneous positions with other institutions. A consequence of XTB doing so is that if Your Trades or Orders relate to Underlying Instruments, Your Trades or Orders can through our hedging exert a distorting influence on the Underlying, in addition to any impact on XTB Prices. This creates a possibility of market abuse and the function of this point is to prevent such abuse and to enable us to take appropriate action.

**38.2.** You represent and warrant to us and agree that each such representation and warranty is deemed repeated each time You open and close a Trade and each time You place and cancel an Order that: -

- You will not place and have not placed any Trade and/or Order with us or otherwise (when You deal with us) behaved nor will You behave in a manner that would amount to market abuse and/or market manipulation by You. For the purpose of assessing whether You have done so, You may be deemed to have dealt directly in the Underlying to which Your trade and/or Order relates.. Further information can be obtained from the FSC website.
- You will not place and have not placed a Trade and/or Order that contravenes any primary or secondary legislation or other law or regulatory rules including in relation to insider dealing.

**38.3.** In the event that You breach any of the representations or warranties stated in above point, or we have grounds for suspecting that You have done so, we may in our absolute discretion (and with or without giving notice to You) and without being under any obligation to inform You of our reason for doing so, close that Trade and/or Order and any other Trades and/or Orders that You may have open at that time and also in our absolute discretion:-

- enforce the Trade(s) against You if it is a trade under which You have made losses; and
- treat Your Trade(s) closed under this clause as void if under which You have made profits, unless and until You produce evidence that You in fact have not committed the breaches. If You do not produce such evidence within the period of six months from the date of closure, all such Trades will be finally null and void as between us. Trades closed under this clause will be closed at the XTB Price.

**38.4.** We are entitled to report to any relevant regulatory authority any Trade, Order or other instruction undertaken by You which may constitute a breach by You of this point.

**38.5.** The exercise by XTB of any of its rights under this point in respect of any Trade and/or Order shall not affect any other right of XTB (under the Regulations or at law) whether in respect of that Trade and/or Order or any other Trade and/or Order.

**39. Abuse of rights and trading solutions** in its sole discretion the Company may revoke, including post hoc, applicability of a feature or special offer to a specific account or particular activity if it is found to be abused or used outside of its reasonably intended purpose. Such revocation may be a result, but is not limited to:

- Abuse of negative balance protection feature for the purpose of transferring undue risk onto the Company;
- Fabricating operations or other activity in order to obtain higher payouts from special offers;
- Use of automated trading systems or trading strategies for the purpose of abusing atypical market conditions or information discrepancies
